1. **Opening**
   
   *Pim opens the meeting at and welcomes everyone.*

2. **Mail**
   
   *The council discusses the in- and outgoing mail.*
3. Concept minutes
Setting of the minutes of PV180117, PV180124, and PC180131 is postponed until next week.

4. Checking the action list
The action list gets updated.

-- Sofie ten Brink and Moataz Rageb enter the meeting --

Guido makes a proposal for the pro memorie list. He proposes that council members try to take care of expressing their opinions and give arguments for their standpoints. Pim says that due preparation will also contribute to this. (pro memorie)

5. Announcements
- Raj is absent. Michele will be absent next week, and Kjeld the week after that.
- An English meeting on the allocation has been organized for February 16th.
- The follow-up session to the CSR internal evaluation will take place after the PV.
- Council members should include Evelien Moors in e-mails regarding the GV.

6. Updates DB & taskforces, representatives, Studentassessor-CvB
The written updates discussed briefly.
- Mees asks whether any policy will be written about the balance between education and research. This has been addressed during the roundtable conversations and will be taken up into the Instellingsplan. Mees suggests discussing this within the faculties.
- Guido states to be against spending the funds from the Middelen Wet Studievoorschot only on honours students, which is what the FdR is currently planning to do. Bram explains that a compromise has been reached to spend these funds also on educational modes for different parts of the student population.
- Kjeld asks the council to consider a proper mailing policy when addressing the faculty councils.
- Kjeld asks whether there are updates regarding the mandatory purchase of study material binders and the Studentenstatuut. Guido is working on the mandatory binders. The Studentenstatuut has been postponed by JZ.
- Roan has offered to give a presentation on setting an OC for honours programs. This plan can be presented during the file holder meeting.
- Pim asks whether the FSR-FMG has a stance on the protests. Loraine explains that the council facilitates the protest but that it is too soon to take a stance. There is, however, an ongoing discussion about these topics within the council.

-- Guest Mourad Farahat enters the meeting --

7. Setting the agenda
The agenda is set with changes.
Added: Media
Taken from the agenda: Student assessor evaluation
8. Model-OER

The CSR decides on its advice about the model-OER for bachelors and masters.

To support the CSR's proposal for changing the name of the model-OER, Bram brought forward an example of the dean referring to the model-OER in a strict way. The references in the summary will be updated and stated clearly. Also, points about the language policy have been added, and the demand for a formal reply from the CvB on sending the model-OER to the deans.

Kjeld suggests mentioning that the CSR is principally against the model-OER. Mees is against adding this. Sasha questions whether it would be useful as this might deviate from the content and Pim agrees. Guido is also against, as it has already been made clear to the CvB before.

**Voting proposal:** The CSR adds to the advice on the model-OER that they are fundamentally against the existence of the model-OER.

*In favor* 2  
*Against* 7  
*Blanco* 2  
*Abstain* 1

The voting proposal is not adopted.

Tamara says that the CvB has asked for a reference to, or quotation of, the points of the advice that came (directly) from the juridical advice. Sasha is in favor of adding this. Michele is against this as this would counter the previous decision of the CSR to not share the advice. Pim says this might differentiate between the juridical advice and the points of advice that came from the CSR, and therefore, in line with Michele, he is not in favor. Bram agrees.

Bram asks why compulsory lectures are being taken up into the OER B bachelors and masters. Mees says that the regulations should be in line with the *Studentenstatuut*, as this only refers to mandatory tutorials. Bram suggests making more explicit that medezeggenschap should not be bypassed in this choice.

**Voting proposal:** The CSR decides to give a negative advice on the model-OER with additions of the PV180207.

*In favor* 8  
*Against* 4  
*Blanco* 0  
*Abstain* 0

The voting proposal is adopted.

The advice will be open for an editorial round until February 8th, 10.30h as the advice should be sent to the CvB that morning.

9. Collegegeldvrij besturen

The CSR decides on its stances regarding the tuition fee free board year.

Teo explains that the CvB would like to consider this separately from flex studying. Teo also conveyed during the informal meeting that the proposal is supposed to counter a problem that is mostly financial. Kjeld says that the study delay that a board year costs should be considered as such. This would also be fairer towards the university in regard to the costs of education. Sasha states that the CvB is in favor of their students having a link to the university and their studies and that having an academic link could be preferable indeed. Guido does not think that non-EEA-students should get the same
compensation. Bram, Ken, and Raj are already working on this separate issue. Bram suggests setting a boundary to the number of ECTS a student can take within the VU-model. Kjeld proposes to follow the VU-model, or when this is not possible, the HvA-model. Michele sees more in looking into burnouts and the workload for students but otherwise agrees with Kjeld. Quinta cannot decide which model to prefer. Ken proposes to look not only at the financial aspects but at the benefits as well.

In favor of the VU-model: Teo, Bram, Sebastian, Sasha, Sofie, David, Guido, Mees, Ken, Loraine, Pim
In favor of the HvA-model: Michele, Kjeld, (Ken)

Voting proposal: The CSR in favor of proposing the VU-model in the OV as an option for implementing collegegeldvrij besturen.

In favor 10
Against 0
Blanco 1
Abstain 1

The voting proposal is adopted.

Michele and Sasha suggest asking the CvB about ways to invest in the medezeggenschap, but Kjeld says this is a separate issue.

-- Mourah Farahat leaves the meeting --

10. Housing & Internationalisation

The CSR discusses organizing a creative session to debate the housing problems.

Tamara says that the VU is also working on these topics and wants to stay informed. Bram spoke to policymakers from the UvA who deal with the internationalization of the university. He says that short stay contracts have been made available for international students at the last moment. This means that these student accommodations are no longer available via the ‘regular’ renting channels, but are given to international students. Bram says that the CSR should not allow this as this both attracts international students and does not give an equal opportunity to all students. Loraine suggests bringing this up in the working group and addressing it during the creative session. Ken agrees but says that the housing problem is a shared problem between all UvA-students. Bram suggests first defining the stances of the CSR on the housing issues to address these in the working group, but Loraine suggests organizing a creative session simultaneously.

Sasha is in favor of organizing the session. Bram and Guido are against organizing a creative session on internationalization and housing. Bram says these sessions tend to portray the international students as being in disadvantage, but they are also creating problems for Dutch students. A session might not be able to show this nuance. Guido adds that all students should have equal chances, and he is therefore against helping international students more and thereby discriminating Dutch students. Loraine says that the session would be to gather information from outside the medezeggenschap and prominent policymakers. This could help the CSR to form their opinion. Quinta is in favor of this. Loraine adds that the housing problem is a general issue and therefore does not need to be focused on international students.

Loraine, Ken, Bram, Raj, and Guido will for next week write a proposal on the angle and organization of the creative session on housing, and they will discuss who writes a meeting piece on the stances of the CSR in the working group. (action)
11. Working situation cleaners

*The CSR prepares for the meeting with FS about the working situation of the cleaners.*

Guido says the meeting should also be aimed at getting the UvA clean. Teo wants the cleaners to be happy. The council is in favor of pursuing the strategy proposed by Loraine. Based on the outcome, it can be considered to invite Harold Swartjes for the next OV.

12. UCO

*The CSR prepares for the UCO-meeting on February 8th.*

Pim wants to stress to the CvB that topics dealing with international students should also be accessible in English and for international students.

**Exam framework;** Pim says the 4-weeks deadline of the OER is not followed consistently. Mees says this deadline is not implemented in the agreements clearly. Pim says that *Studiesucces* might have a negative impact on the number and frequency of exams. Mees says that there are disadvantages with frequent tests but a yearly exam has the same risk of being disproportionate. The current suggestion is to change the way of compensation for grades in regard to the BSA. Sofie explains how the DSA, in a way, counts as a proper alternative. Pim says that the constant pressure of exams is problematic in the 8-8-4 semester planning, but Mees says that the amount of exams is not inherent to 8-8-4. Sofie says that the facilitation of exams should be taken into account as well. Pim adds that setting a strict deadline for grading exams is important for students and that there should be repercussions for teachers who fail to meet these deadlines.

**BSA;** Michele says that the working group will be using data from *Studielink*, so no data on self-identification of gender is available. Moreover, no connection with the UvA-matching evaluation is made, although these 2 evaluations will be linked. Michele would like to take place in the working group.

**UCO-planning;** rescheduling tutorial rooms, rescheduling the holidays, Turnitin, Honours. Michele says that the honours committee has been put on non-active status, and he would like to stay updated.

**Functional limitation** Ken suggests highlighting the link to the student disability platform. Moataz says that there are plans to transform the platform. Sasha will voice in the UCO that the platform and FSR's should be included. Michele says that these matters are not discussed by the faculty board despite having to be implemented faculty-wide. The FSR’s should be notified about the responsibility of the educational directors in this. Kjeld says that this can be done by the delegates. Ken Ken will also bring this up during the upcoming file holder meeting.

13. OV: Sustainability

*The CSR discusses its strategy for addressing the universities sustainability policy.*

Mees asks Teo for an update on the contact with Deutsche Bank. Teo does not know and the meeting did not take place yet.

Mees asks what is meant with the proposal to offer organic dishes. Teo has no plan. Guido suggests offering regional and seasonal food. Bram and Teo explain that these suggestions fall under the set contract with the caterer. Kjeld says that Cormet can hire contractors that offer seasonal products. Guido suggests giving away left-over food. Pim suggests taking care of products not being used in a sustainable fashion. Ken asks about the sustainability of the coffee cups, and Teo says that this a part of the proposal on recycling. Ken suggests to explicitly include paper materials and to offer alternatives. Guido is against polystyrene coffee cups as an alternative and Michele agrees.

Sasha suggests including the facilitation of bottom-up initiatives and grass root projects. Sebastian suggests setting policy on the heating of rooms and buildings. Sasha suggests linking this to the eco-friendly protocol. Loraine suggests looking into possibilities of re-using waste as not just a form of
recycling. Guido proposes to reduce the amount of waste. Sebastian is against ‘fun trips’ by plane for the CvB, and Michele suggests in that regard to put a quota on the number of exchange students.

15. Media

P&A: student assistants, international student barometer, mental health
D&P: university forum, new student assessor
D&SS: WhatsApp of StS,
F&H: Turnitin, working situation cleaners
F&C: collegegeldvrij besturen, English allocation model
General: platform for books exchange, master weeks

16. W.v.t.t.k. / Any other business

- **Digital examination rooms:** Taskforce Facilities & Housing asks whether student bodies are aware of this shortage and whether there are reports supporting this claim. Guido and Quinta had been notified about the shortage in different working groups. Guido says a shortage is emerging due to the increase of digital exams.

- **Bike parking:** Bram says that the parking spots are very busy and that the underground spots cannot be used by those who work or study until late. Loraine asks why the parking spots at G-building have been removed. F&C will take this up and will ask the FSR’s who reside at REC about their experiences. *(action)* Sofie adds that there should be parking places for the daily visitors of the REC.

- **English Allocation model:** An meeting has been organized to give English speaking students and staff the possibility to ask questions about the allocation model. Michele suggests inviting the ASVA, NU! And OC’s.

- **Education desks:** Guido says that GALOP asked for the opinion of the CSR about the name change of education and service desks. The council asks for more background information. Guido will write a meeting piece to form an official CSR opinion. *(action)* The delegates check the names of the desks at their faculties and how they came to be and why they are named in a certain way. *(action)*

17. Input request from the FSR’s

None.

18. Questions

- Michele asks whether all FSR’s have written an advice on the allocation model to the GV.

- Kjeld suggests looking into the solar benches that have been placed on the campus. Taskforce Facilities & Housing will take this up and Kjeld can give more information. *(action)*

- Sebastian wants to take a new group picture and asks when everyone can be present.

- Bram says that a concept press statement about the housing situation in Amsterdam can be expected by tomorrow.

- Bram asks PR to give an update on the finances of the lunch for the students from Minsk. *(action)*

- Pim says that the rector wants to discuss burnouts and solutions with the CSR. Sebastian, Pim, Ken, Sasha, and Bram write a meeting piece. *(action)*

19. Ending

Pim closes the meeting at 18.00h.
