5. **Announcements**
- Mees, Guido, and Michele will have to leave early.
- Tamara is absent for the PV on April 4th and asks which council member would like to take the minutes of that PV. Michele and Sasha are interested.

6. **Updates DB & taskforces, delegates, Studentassessor-CvB**
*The written updates discussed briefly.*

7. **Setting the agenda**
*The agenda is set with changes.*

*Added:* IR update, taskforce merging.

8. **Commoning UvA: financial compensation**
*The CSR decides on the compensation for the CSR-evaluations.*

The CSR decides to compensate Commoning UvA €150,- for their contribution to the CSR evaluations.
*(decision)*

9. **Internationalization & Medezeggenschap**
*The CSR discusses the financial aspects of offering compensation for international students.*

Guido is skeptical about the proposal. He is in favor of creating the possibility for all students to participate in the medezeggenschap, but believes that the proposal creates a preferred position for non-EEA students and is principally against this. Bram says that the marginal costs for Dutch students would be the same as for non-EEA students, and questions whether being involved in the medezeggenschap should cost €10,000 for non-EEA students while they are subject to the same delay and contribute the same as Dutch students do.

All council members, besides Guido, are in favor of the proposal. The proposal will be brought to the OV via a meeleesmemo.

10. **Honours & Excellence**
*The CSR discusses the setup of honours programs in relation to its stances on excellence.*

Michele gives an update on the meeting with Brigitte Widdershoven, who stated that all honours fall under the OC's of the respective faculties and will send an overview of this.

Guido stresses that honours courses should be made more accessible to students, and not the programs in general. Michele agrees and had addressed it in this way.
Sofie asks whether the NVAO will be measuring the quality of honours programs, but this is not the case. When the honours programs as a part of the talentgelden will be financed nationally this will become a part of the quality assurance.

Michele suggests addressing the IIS and asking for the abolishment of the UvA-VU honours committee during the OV. The evaluation of the honours programs will be addressed at a later stage. Kjeld suggests linking this to the proposal of the FSR-FNWI and will discuss this with Michele after the OV. (action)

11. Study places REC: evaluation

The CSR discusses the preliminary list of questions for the survey on study places.

Teo says that certain points on the study places have already been addressed in the UB’s survey of last year. The council gives input for the evaluation:

- Spreading the computer spots over different, quiet study rooms
- Sitting behind a computer when not using it
- Environment and atmosphere of the UvA
- The ratio of study spaces per students
- Demand for (a specific type of) study spaces
- Quality and silence of study spaces
- Different ways of using study spaces
- The choice to study at the university

12. Kiesreglement OC-verkiezingen

The CSR discusses the electoral regulations for the OC-elections in 2018-2019.

Loraine asks whether the OC’s get help with the organization of the elections and the creation and handing out of promotional materials.

Kjeld asks which on which days specifically the OC-elections will be organized, but this is not known yet. Kjeld says that the last 2 days of the elections would be preferable, but Sofie says that having different voting periods will be confusing. Mees is in favor of making the periods equal.

Sasha says that the CvB proposes to compose soundboard groups for the OC's as 1st-year students can be included in this way. This is not included in the Kiesreglement.

Guido is against changing the 'she/he' reference into a neutral alternative.

Pim says that the amount of teachers in the OC is set per department, and Michele wants JZ to make this explicit in the regulations. Pim asks how an OC can stay balanced if being composed of students from different years, and Michele explains that this is safeguarded via kiesdistricten.

Pim suggests laying responsibilities more with the program directors instead of the deans.

Sofie asks what can be done if faculty regulations do not mention the OC elections. Michele explains that the elections are defined generally in the Faculty regulations.

Sofie says that article 10.2 does not mention a procedure to object to changes. Sofie says that article 10.3 does not deal with the fact that the deadline for objections from the CSB lies after the 7-days deadline for objections. Sofie suggests removing article 16.a. Sofie suggests carefully considering the objection terms in articles 16 and 17. Kjeld suggests defining the Blanco vote in article 29. Sofie suggests placing article 33 under article 35. Sofie points out that article 34 refers to 'de raad' instead of 'de Opleidingscommissie.’ This will be checked for the regulations as a whole.

Michele works out the CSR’s comments and informs Miek Krol before March 23rd. (action)
13. Flexstuderen

The CSR gets informed about the possibility of including new programs in the pilot flex studying. Pim says that the CvB has said that the experiment is closed; new programs cannot join any longer. Guido asks why taskforce Program & Accessibility decided to not take up the request of Anthropology to join the pilot. Michele says that the CSR has advised positively on the pilot and agreed on evaluation it afterward, based on the list of programs that was attached to the request for advice. Guido is in favor of including the programs that request so and asks why it is not possible to add new programs during the pilot. Michele says that the capacity of the pilot needs to be considered. Guido is in favor of including the programs that request so and asks why it is not possible to add new programs during the pilot. Michele says that the capacity of the pilot needs to be considered. Guido wants to adjust the capacity to the demand. Bram says that it should not be decided centrally who can join the pilot, and states to be negative about the abolishment of deeltijd studying and implementing flex studying afterward.

Sasha asks why the demand of Anthropology to be included in the pilot was not done formally via the CvB, but informally via Arne Brentjes. Michele suggests not opening up the file at this moment and ending up with a discussion on the content of flexstudying. Sofie writes a meeting piece for PV180328 to discuss whether the CSR wants to allow extra programs to join the pilot flex studeren. (action)

14. Learning Analytics

The CSR gets updated on the different levels of Learning Analytics. Kjeld says that the ideas of the working group are not concrete enough. Mees asks what has been achieved, and Guido says that this is not a lot, but the group is now composed of new members who have a lot of new ideas. Guido wants to attend the meeting to help to create an app to track and improve study progress and to discuss the use of data for improving studies. Pim says that the BL/CILT working groups will fall under the direct responsibility of the rector, which means they might become more influential. Pim and Guido stress the importance of digitalization following education, and not the other way around, and the importance of protecting the privacy of students.

-- Michele Murgia leaves the meeting --

15. Turnitin

The CSR gets updated on the latest developments with regard to the plagiarism checks via Turnitin. Sofie asks whether the plagiarism check causes a high workload for teachers and whether there are many cases of suspected plagiarism via Turnitin. Quinta explains that the extra check on plagiarism is only used if the first scan shows positive results. The working group is currently checking whether all these cases, after the first scan and being checked by teaching staff, end up being brought to the examencommissie.

Sofie asks whether teachers have the option to insert a ‘white list format’. Quinta expects this to be part of the current structure and did not hear any complaints or demands on this matter. Sofie asks whether the given format or code for an exam are still marked as plagiarism. Quinta will inquire this. (action)

Sofie asks whether teachers can send the work of students to the global database or whether measurements are taken to keep data from leaking out. Quinta says that this procedure is being made more visible in the new update, to explain to teachers how to keep the work of student within the UvA.

15. Institutional research programmaraad update

Sasha gives a brief update on the meeting.
16. Cormet lunch
Kjeld suggests asking for a discount that is worth the same as the difference between the initial invoice and the final payment. Mees will take up this discussion with Cormet. (action)

17. Taskforce merging
Pim says that the merger of the taskforces Finance & Collaboration and Facilities & Housing was discussed in the taskforces, and it was concluded that this merger would not be a good idea. Pim suggests solving the structural issues within the DB instead.
